Function Name	#	Test Description	Sample Input	Expected Result	Actual Result	Pass or Fail
Int IDexist();	1	Check if correctly checking existing IDs	New ID = 12345678 nID1 = 12345678 nID2 = 87654321 nID3 = 12341234 nID4 = 43215678 nID5 = 98765432	Returns 1 ID already exist		☑
	2	Check correctly checking non existing IDs.	New ID = 12345678 nID1 = 6789023 nID2 = 87654321 nID3 = 12341234 nID4 = 43215678 nID5 = 98765432	Returns 0 (ID does not exist and proceeds to gameplay)		☑
Void iHighscores ();	3	Checks if the function correctly sorts score when a new score is added.	Current Scores: nH1 = 100 nH2 = 50 nH3 = 50 nH4 = 30 nH5 = 10 New score = 90	nH1 = 100 nH2 = 100 nH3 = 50 nH4 = 50 nH5 = 30		☑

	4	Checking score shifting when a low score is added.	Current Scores: nH1 = 100 nH2 = 100 nH3 = 50 nH4 = 50 nH5 = 30 New score = 70	nH1 = 100 nH2 = 100 nH3 = 70 nH4 = 50 nH5 = 50		☑
Float nGameplay ();	5	Check if the score is updated after every correct answer.	nlevel = 1 nlives = 3 nscore = 0 cAns = 11 User Input =11	nlevel = 2 nscore = 10		☑
	6	Decreases life when answer is incorrect	nlevel = 4 nlives = 3 nscore = 30 cAns = 18.6 User Input =12.3	nlevel = 4 nlives = 2		☑
	7	Displays game over when lives reaches 0	nlevel = 4 nlives = 1 nscore = 30 cAns = 30.2 User Input =26	Prints “GAME OVER” and exits gameplay loop		☑
	8	Test level progression	User completes all 10 levels	Prints “CONGRATULATIONS YOU WIN!” and return nscore as the final score for the run		☑

Float dFH();	9	Test facehugger generation at all levels	Random Number Generator: 1 fFACEH = 1.0	Print //(~O~)\\ Total Value: 3	 .	☑
Float dCB();	10	Test Chestbuster generation at levels 2 and 5	nlevel = 2 Random Number Generator: 3 fCHESTB = 2.0	Returns 0 and no Chestbusters are printed		☑
	11	Test Chestburster generation at all levels except 2 and 5	nlevel = 1 Random Number Generator: 5 fCHESTB = 2.0	Print \\<^o^>// \\<^o^>// \\<^o^>// \\<^o^>// \\<^o^>// Total Value: 10		☑
Float dXM();	12	Test Xenomorph generation at all even levels	nlevel = 2 Random Number Generator: 2 fFACEH = 4.2	Print (((((((O,,,o) (((((((O,,,o) Total Value: 8.4		☑
	13	Test Xenomorph generation at all odd levels	nlevel = 1 Random Number Generator: 3 fFACEH =	Returns 0 and no Xenomorphs are printed		☐

			4.2			
Float dQN();	14	Test Queen generation at level 10	nlevel = 10 Random Number Generator: 2 fFACEH = 7.3	Print)))O***O((( )))O***O(((Total Value: 43.8		☐
	15	Test Queen generation from level 1-9	nlevel = 1 Random Number Generator: 3 fFACEH = 7.3	Returns 0 and no Queens are printed		☐
